

Watch & Care V300

High-quality, digital, wireless A/V monitoring system with colour display and vibration alarm

MONITOR FUNCTIONS:

- 4.3" TFT colour display
- Zoom (2x)
- Extendible antenna to optimise range
- Vibration alarm (the parent's unit vibrates when a certain noise level is reached)
- Volume controls
- Intercom function (baby <> parents)
- Battery pack: 3.7 V, 1700 mAh (included)
- 2.4 GHz signal (digital) penetrates walls, floors, and ceilings
- Optical range warning
- Optical (3 green and 2 red LEDs) baby alarm
- Temperature monitoring with alarm for the nursery
- Stand-by: max. 6 hours (with VOX off, video function on)
- Stand-by: max. 10 hours (with VOX on, video function off)
- 19 channels
- Extendible support

CAMERA FUNCTIONS:

- Electronically rotating camera (horizontal: 300°, vertical: 110°)
- 8 infrared diodes for visibility at night
- Light sensor
- Temperature sensor
- Noise-activated transmission (VOX)
- Encoded transmission
- Transmission range (outdoor) up to 250 m under optimum conditions. In buildings, the range is reduced due to walls, doors, etc.
- 5 lullabies
- Can be mounted on the wall

TECHNICAL SPECIFICATIONS:

- DIMENSIONS (width x depth x height):
 - Parent unit: 148 x 25 x 88 mm
 - Baby unit: 96 x 86 x 100 mm
- Weight: (without batteries / power supply)
 - Parents unit: approx. 220 g
 - Baby unit: approx. 230 g
- Colour: white/blue

CONTAINS:

- 1x Parent unit
- 2x power supply units
- 1x Baby unit
- 1x operating instructions

- Energiesparend
- Energy efficient
- Economisant l'énergie
- A risparmio di energia

Warranty: 24 months

Retail unit: EAN bar and green dot

Packaging unit: 6 cardboard boxes
